- 703-237-2785 or 703-639-7369

## Contract:
USSTRATCOM Joint Functional Component Command Intelligence Surveillance and Reconnaissance (JFCC-ISR) ISR Analysis, Modeling and Simulation Support

## Location:
Work will be conducted primarily at DIA HQ, Joint Base Anacostia-Bolling, Washington, D.C and the Pentagon, Washington, DC. This position may require travel to government facilities in the National Capital Region, Huntsville AL, Omaha NE, San Diego CA, and possibly other Government approved locations.

## Job Title:
ISR Collection and Operations Analyst, Mid-level and Junior

## Reports to:
Customer Supervisor

## Clearance Required:
TS/SCI and U.S. Citizen

## Type of position:
Full-time

## Hours:
40 / week

## GENERAL DESCRIPTION
Support JFCC-ISR’s analysis of Global ISR collection operations to establish and document the performance and effectiveness of both the ISR platforms/sensors and the associated TCPED architecture.

Strong written and oral communication skills to articulate requirements and procedures, convey tasking’s, and exchange information.

Be familiar with 1) IC, DoD, and Global ISR Intelligence disciplines; 2) Collection Requirements Management and associated software tools such as GIMS, PRISM, NSRP and SAVANT; and 3) Collection Operations Management and associated tools such as ROME and BVI.

## WORK EXPERIENCE REQUIREMENTS
1. Three + years military, government civilian or contractor experience producing Global ISR Assessment documents, briefings, and findings with project leadership experience (Mid-level).
2. Understand production of Global ISR Assessment documents, briefings, and findings (Junior)
3. Working knowledge of the intelligence cycle as it relates to DoD collection operations, platforms, and sensors.
4. Full proficiency with select Microsoft Suite Software (Outlook, Word, PowerPoint, Excel, Access, Publisher, Vizio, Project)
5. Working knowledge of Arc Geographic Information System (ArcGIS), Google Earth and other visualization tools

## DESIRED EXPERIENCE
1. Completion of Professional Military Education and minimum of four (4) years military experience
2. Advanced degree in Operations Research or Intelligence, Senior war College Graduations, Joint Intelligence qualification, and defense acquisition experience/qualification.
3. Joint HQ, Intelligence, ISR Action Officer or Management Experience.
4. Candidate will possess strong execution and problem solving skills and possess the ability to operate in an independent environment.
5. Candidate must possess composure to be an effective asset in a joint environment.
6. Candidate must understand operations and have experience working directly with a military operational command.
